

USF CONNECT

Ability Worldwide, Inc. Joins the Tampa Bay Technology Incubator

February 6, 2012
Tampa, FL

USF CONNECT would like to welcome its newest company, Ability Worldwide, Inc. to the Tampa Bay Technology Incubator (TBTI). The company was founded in 2010 by Suzanne Schwitalla, a veteran with over 24 years of experience with the Defense community. Schwitalla served as an Army Ordnance Officer and held senior management positions for several defense contracting firms. In addition, she has led national-level committees from many different industry associations to support advisory projects for Pentagon officials.

About Ability Worldwide, Inc.

[Ability Worldwide, Inc.](#) is a consulting firm providing expertise in program-focused strategy design, technology, as well as training and operational support to help government organizations and businesses adopt performance based business models, improve organizational effectiveness and expand into new markets. With core strengths lying in logistics, mission assurance, workforce competency development and sustainment engineering, Ability Worldwide, Inc. helps its clients achieve high performance levels, from the executive level down to field service workers.

About USF CONNECT and the TBTI

[USF CONNECT](#) focuses on the needs of Tampa Bay's technology and bio/life sciences entrepreneurs throughout the business life cycle. We provide the facilities, partners and resources for successful business development. We offer access to technologies, workforce programs, technology commercialization, critical research equipment, and incubator facilities. USF CONNECT adds value and delivers targeted, high level expertise when your business needs it most.

[The Tampa Bay Technology Incubator](#) (TBTI) is one vehicle through which USF CONNECT grows successful companies. TBTI supports technology research as a catalyst for economic development and advocates the creation and development of facilities for high-technology companies and related support functions.
