AWR Signs Reseller Agreement with Modelithics

*Modelithics' Libraries Now Available Directly Through
AWR's Global Sales Channel*

El Segundo, California and Tampa, Florida – March 26, 2012 – [AWR Corporation](#), the innovation leader in high-frequency EDA software, and [Modelithics Inc.](#), have signed a global reseller agreement for AWR to sell and support Modelithics' model libraries. The combined product offerings of Modelithics® [CLR](#) and [COMPLETE \(CLR, NLT, NLT, and SLC\)](#) libraries alongside AWR's Microwave Office™ software gives microwave designers immediate access to high-fidelity parameterized models that better predict real-world behavior when simulated within the AWR design environment.

“We are committed to continuing to supply more and more accurate models with improved features to the RF and microwave design community,” stated Larry Dunleavy, co-founder of Modelithics. AWR further noted that with this relationship, AWR's world-wide customers will benefit from easier and more convenient access to, and installation of, Modelithics' high-quality, well-documented model libraries as well as an enhanced level of customer support.

Pricing and Availability

Modelithics' model libraries are available today through AWR. Contact your local representative for pricing or to request an evaluation.

[About AWR](#)

AWR, the innovation leader in high-frequency EDA software, dramatically reduces development time and cost for products employed in wireless, high-speed wired, broadband, aerospace and defense, and electro-optical applications.

[About Modelithics](#)

Modelithics Inc. is the premier provider of high accuracy RF and microwave active and passive simulation models for use in Electronic Design Automation (EDA). Modelithics' offers highly scalable and accurate model libraries for a growing number of components and ICs from various manufacturers, ranging from passive components to non-linear diode, to transistor models, and system-level components.
