USF CONNECT Welcomes Rehab Ideas, Inc. to the Tampa Bay Technology Incubator

USF CONNECT is pleased to announce the newest company to join the Tampa Bay Technology Incubator is Rehab Ideas, Inc. Rehab Ideas was founded by a group of rehabilitation engineers, specialists, and experts in the health care industry, with a mission to apply the latest in technology and engineering to increase the independence of people with disabilities.

With a combined experience exceeding 68 years of providing rehabilitation and assistive technology services, and in cooperation with the University of South Florida, College of Engineering's rehabilitation technology lab, Rehab Ideas is proud to bring to market many new and innovative products to serve people with disabilities, with a special focus on those who use wheeled mobility.

Using the latest robotics, and state of the art technologies, Rehab Ideas plans to increase the independence of people with limited mobility through exciting new ideas in the area of vehicles, workstations, and wheel chairs.

Rehab Ideas, Inc. joins nearly twenty other companies housed in the Tampa Bay Technology Incubator conducting biotech research. For more information about Rehab Ideas, Inc., USF CONNECT and the Tampa Bay Technology Incubator, please visit www.usfconnect.org
